

Organization/ Database	Description	Migration and Health Variables
<p>Alliance to Reduce Disparities in Diabetics (ARRD)</p> <p>http://ardd.sph.umich.edu/index.html</p>	<p>The ARRD aims to help decrease diabetes disparities and enhance the quality of health care by improving prevention and management services. The ARRD work with national, regional and community partners to develop and implement comprehensive, evidence-based diabetes programs.</p>	<p><input checked="" type="checkbox"/> Descriptive: Database emphasis and focus mainly on Type 2 diabetes and how it's disproportionately affects people of certain racial and ethnic groups/minorities.</p> <p>Health variables studies are diabetes, nerve, heart, kidney diseases, nutrition, and glucose control.</p> <p>Data for Public use: http://ardd.sph.umich.edu/university_chicago.html http://ardd.sph.umich.edu/participating_sites.html http://ardd.sph.umich.edu/sitemap.html http://ardd.sph.umich.edu/center_managing_chronic_disease.html</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Racial/ethnicity concentration was on major minority groups including African-Americans, American Indians, Asian Americans, Hispanics/Latinos and Pacific Islanders.</p> <p><input type="checkbox"/> Survey emphases on foreign born status, percent of foreign born, numeric difference of foreign born and percentage fall in foreign born and other related immigration status.</p>
<p>Behavioral Risk Factor Surveillance Risk System (BRFSS)</p> <p>http://www.cdc.gov/BRFSS/</p> <p>Contact Information: National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP)</p>	<p>Summary: The health emphasis summary was on general lifestyle and health behaviors such as smoking, diet and nutrition, exercise etc. that are associated with preventable chronic diseases, injuries, and infectious diseases.</p> <p>The BRFSS is a state-based system that is used to gather information through telephone surveys conducted by the health departments of all 50 states, the District of Columbia, Puerto Rico, the Virgin Islands, and Guam, with assistance from CDC. The BRFSS is the world's largest</p>	<p><input checked="" type="checkbox"/> Descriptive: The measured are behaviors and conditions that are linked with the leading causes of death—heart disease, cancer, stroke, diabetes, and injury. The questionnaires assess present and past health conditions and lifestyle. Data collected is cross-sectional.</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Demographic Variable Module ask direct question about Race, "Which is your race?"- "White"; "Black or African American"; "Asian"; "Native</p>

<p>4770 Buford Hwy, NE MS K-40 Atlanta, GA 30341-3717</p>	<p>continuously conducted telephone health surveillance system, which conducts more than 350,000 interviews per year. The BRFSS is the primary source of data for local entities, states, and the nation on the health-related behaviors of adults. States collect data through monthly telephone interviews with non-institutionalized adults aged 18 years and older. BRFSS interviewers ask questions related to behaviors that are associated with preventable chronic diseases, injuries, and infectious diseases.</p>	<p>Hawaiian or Pacific Islander”; American Indian or Alaska Native” as options. The Reaction to Race Module analysis how participants classify self in terms of ethnicity, perception of treatment received compared to other race when seeking health care e.g. “Are you a Latino?”</p> <p>Questionnaires in English and Spanish available on web: http://www.cdc.gov/brfss/questionnaires/english.htm http://www.cdc.gov/brfss/questionnaires/en_espanol.htm http://www.cdc.gov/brfss/pubs/quality.htm</p> <p><input type="checkbox"/> The survey did not include immigration status of participants (whether native or foreign born) in the survey.</p>
<p>Center for Comparative Immigration Studies (CCIS) http://www.ccis-ucsd.org</p> <p>Contact Information: University of California-San Diego La Jolla, California 92093-0548 U.S.A. Telephone: (858) 822-4447 Fax: (858) 822-4432 E-mail: ccis@ucsd.edu</p>	<p>The Center is an interdisciplinary, multinational research and training program devoted to comparative work on international migration and refugee movements. Its primary missions are to conduct comparative (especially cross-national) and policy-oriented research, train academic researchers, students, and practitioners, and disseminate research conducted under its auspices to academics, policymakers, and NGOs through research seminars, conferences, publications, the internet, and the mass media.</p> <p>CCIS seeks to illuminate the U.S. immigration experience through systematic comparison with other countries of immigration, particularly in Europe and the Asia-Pacific region.</p> <p>(Currently compiling data sets for the Mexican Migration Field Research Program http://ccis.ucsd.edu/programs/mmfrp/, so instead linked to Migration Information Source/MPI http://migrationinformation.org/ (see also entry below))</p>	<p><input checked="" type="checkbox"/> Descriptive: The Center is also committed to actively collaborating with other academic institutions, governmental and non-governmental organizations, and the local community.</p> <p>http://www.ccis-ucsd.org/Programs/research.htm Survey questionnaire, 2005 1995 Survey Data Cuestionario 1995.pdf</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Database evidence is limited, only provided information base on Hispanics/Latinos with U.S. immigration system.</p> <p><input checked="" type="checkbox"/> Survey emphases on foreign born status, percent of foreign born, numeric difference of foreign born and percentage fall in foreign born and other related immigration status. http://migrationinformation.org/</p>

<p>Central European Forum for Migration and Population Research (CEFMR)</p> <p>http://www.cefmr.pan.pl/</p> <p>Contact Information: Twarda 51/55, 00-818 Warsaw, Poland Tel. (48 22) 697 88 34, Fax (48 22) 697 88 43 E-mail: cefmr@cefmr.pan.pl</p>	<p>CEFMR specializes in multidisciplinary research on international migration in Central Europe. It conducts research in demography, population statistics, modeling of migration and population, geography, migration policies, sociology and economics.</p>	<p><input checked="" type="checkbox"/> Descriptive: CEFMR focuses are centered in the aspects of demography, social and political science. Their research also has a focus on the migration of Polish, combating Illegal employment, and forecasting migration in Europe.</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Racial/ethnicity concentration was analyzed. <p>National Agricultural Workers Survey (NAWS)</p> <p>http://www.doleta.gov/agworker/naws.cfm</p>	<p>The National Agricultural Workers Survey (NAWS) is an employment-based, random survey of the demographic, employment, and health characteristics of the U.S. crop labor force. The information is obtained are directly from farm workers through face-to-face interviews.</p> <p>The survey samples crop workers in three cycles each year to reflect the seasonality of agricultural production and employment.</p>	<p><input checked="" type="checkbox"/> Descriptive: The Employment and Training Administration (ETA) contributes to the more efficient functioning of the U.S. labor market by providing high quality job training, employment, labor market information, and income maintenance services primarily through state and local workforce development systems.</p> <p>http://www.doleta.gov/usworkforce/WIA/planstatus.cfm http://www.ows.doleta.gov/unemploy/bam/2004/bam-facts.asp http://www.doleta.gov/grants/rfp/rfp03-34_amend.cfm http://www.doleta.gov/agworker/pdf/documentation/NAWS_Questionnaire_CYCLE_55.pdf http://www.doleta.gov/agworker/pdf/documentation/NAWS_Instrumento_CICLO_55.pdf</p> <p><input type="checkbox"/> Ethnic/Racial Status: Racial/ethnicity concentration was not analyzed.</p> <p><input type="checkbox"/> Survey emphases on foreign born statues. Immigration and labor were examined in terms of policy towards migrants/seasonal farm workers and overall immigration policy in the US</p>
<p>National Center for Farmworker Health (NCFH)</p>	<p>The mission of the corporation, as established by the Board of Directors, is to improve the health status of farm worker families</p>	<p><input checked="" type="checkbox"/> Descriptive: Database focuses on migrant farm workers and immigrants families.</p>

<p>http://www.ncfh.org</p> <p>Contact Information: 1770 FM 967 • Buda, TX 78610 (512) 312-2700 (800) 531-5120 fax (512) 312-2600 info@ncfh.org</p>	<p>through appropriate application of human, technical, and information resources. The National Center for Farmworker Health proactively supports the work of migrant health centers and the empowerment of farmworker communities in our mission to improve health status. NCFH emphasis is to eliminate the barriers to health care and increase access for farmworker families to culturally appropriate quality health care.</p>	<p>Health Variables: Breast and Cervical Cancer, Respiratory health, HIV/AIDS, oral health, Maternal and child health, mental health, occupational health, healthy environments, and Tuberculosis.</p> <p>http://www.ncfh.org/?pid=5 http://www.ncfh.org/?pid=23</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Database evidence is limited, only provided information on migrated farm workers from Latin America.</p> <p><input checked="" type="checkbox"/> Survey emphases on foreign born status, percent of foreign born, numeric difference of foreign born and percentage fall in foreign born and other related immigration status. http://www.ncfh.org/docs/fs-Migrant%20Demographics.pdf</p>
<p>National Center for Health Statistics (NCHS)</p> <p>http://www.cdc.gov/nchs/</p> <p>Contact Information: 3311 Toledo Road Hyattsville, MD 20782 Phone: 1-800-232-4636</p>	<p>The National Health Care Surveys are designed to answer key questions of interest to health care policy makers, public health professionals, and researchers. These can include the factors that influence the use of health care resources, the quality of health care, including safety, and disparities in health care services provided to population subgroups in the United States.</p>	<p><input checked="" type="checkbox"/> Descriptive: The health variables are diseases such as diabetics, heart diseases, cholesterol, and hypertension. Injuries such as accidents, assault, self-inflicted injuries and suicide including lifestyles. Life stages and population-women's health, birth and mortality rates, children health etc.</p> <p>http://www.cdc.gov/nchs/data/nhanes/nhanes_07_08/screener1_07_eng.pdf http://www.cdc.gov/nchs/nhanes/nhanes2009-2010/questexam09_10.htm#questionnaire http://www.cdc.gov/nchs/surveys.htm</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Survey questions denoted specificity around racial and ethnical assessments. Survey questionnaires has Spanish version, survey questions emphasis on participants racial traits of participants in terms of identification. The questionnaire highlighted ethnic specific questions; it requested participants to indicate</p>

		<p>country of identification e.g. it listed countries of Central and South American with notion for subject to identify with specific ethnic group. In addition, the questionnaires was indicated and ask subject to identify self with one or more racial group e.g. “White”; “Black/African American”; “Indian (America)”; “Native Hawaiian”; “Asian Indian” etc.</p> <p><input checked="" type="checkbox"/> Survey questionnaires emphasized on subjects’ immigration statuses. It posed questionnaires on subject’s that were born in the U.S including those born in the Territories and U.S. Islands, born abroad to U.S parents, U.S. citizens via Naturalization, and Not a U.S. citizen categories.</p>
<p>National Council of La Raza (NCLR)</p> <p>www.NCLR.org</p> <p>Contact Information: Raul Yzaguirre Building 1126 16th Street, N.W. Washington, DC 20036</p> <p>Tel. 202-785-1670</p>	<p>The National Council of La Raza (NCLR) – the largest national Hispanic civil rights and advocacy organization in the United States – works to improve opportunities for Hispanic Americans. NCLR serves all Hispanic subgroups in all regions of the country and has operations in Atlanta, Chicago, Los Angeles, New York, Phoenix, Sacramento, San Antonio, and San Juan, Puerto Rico.</p> <p>NCLR conducts applied research, policy analysis, and advocacy, providing a Latino perspective in five key areas – assets/investments, civil rights/immigration, education, employment and economic status, and health.</p>	<p><input checked="" type="checkbox"/> Descriptive: Health variables measured are diabetes, HIV/AIDS, cervical and breast cancer, cardiovascular diseases, genetics, obesity, cholesterol, stroke, Alzheimer's, asthma, and nutrition and exercise. (ADVOCACY, less research/statistics/databases). Data for Public use:</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: Racial/ethnicity concentration was predominately Hispanics/Latinos economic, social and immigration policies. Database is solely focus on Hispanic/Latino as a race in general. There were no specifications around ethnicity, however, much emphasis were discussed on general health concerns in the community. In addition, NCLR monitors immigration policy around this population in terms of micro-analysis rather as a system change issue.</p> <p>http://www.nclr.org/index.php/issues_and_programs/health_and_nutrition/hispanic_health/</p> <p><input type="checkbox"/> Survey emphases on foreign born status, percent of foreign born, numeric difference of foreign born and percentage fall in foreign born and other related immigration status.</p>

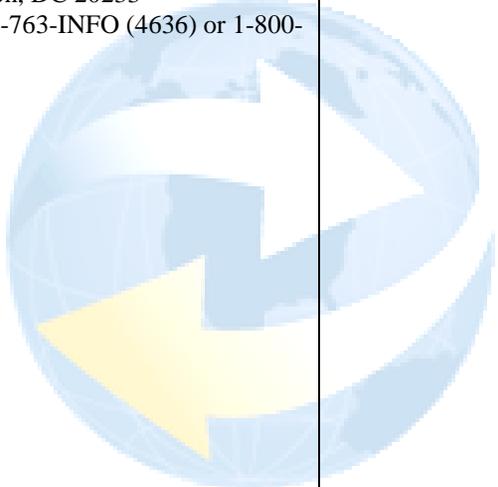

<p>National Institute of Occupational Health and safety (NIOSH)</p> <p>http://www.cdc.gov/niosh/oe/</p> <p>Contact Information: 1-800-CDC-INFO (1-800-232-4636) Outside the U.S. 513-533-8328 Email: cdcinfo@cdc.gov Website: www.cdc.gov 1-888-232-6348 TTY</p>	<p>The overall goal of NIOSH is the prevention of illnesses, injuries, and deaths caused by hazards on the job. Recognizing the valuable contributions of extramural scientists and educators to this endeavor, NIOSH sponsors research and training through its extramural programs, which complement the Institute's intramural programs. The creativity and special resources available in the extramural community make these programs an important component in achieving a National goal to have safe jobs and healthy workers.</p> <p>The major health variables measures are elevated blood lead levels (BLL's) in adults that damage the nervous, hematologic, reproductive, renal, cardiovascular, respiratory, trauma/ injury, and gastrointestinal systems. Occupational health variables such as exposure to chemical /pesticides and other external agents were included.</p>	<p><input checked="" type="checkbox"/> Descriptive: NIOSH adopted variety of modules to define, investigate, and interpret data relating to monitoring workplace safety measures. These modules vary in contents, however, each is directed towards reduction in occupational hazards and aim to provide and enhance safety measures at workplace.</p> <p>Variables assessing race, ethnicity and immigration status are General occupational injuries ranging from physical illness to deaths in the workplace.</p> <p>http://www.cdc.gov/niosh/database.html#injury http://www.cdc.gov/niosh/topics/ABLES/ables-description.html http://webappa.cdc.gov/ords/norms.html http://www.cdc.gov/niosh/topics/pesticides/ http://www.cdc.gov/niosh/topics/surveillance/NOMS/icd-occ-form.html</p> <p><input checked="" type="checkbox"/> Ethnic/Racial Status: NIOSH noted a distribution pattern of fatal occupational injuries and nonfatal occupational injuries and illnesses among what it referred to as “selected special populations at risk” within the labor force The Selected Special Population are young workers, older workers, and Hispanic workers. In respect to the Hispanic workers, I will argue that the indirect goal was to make comparison if they share same work and injury characteristics with their U.S counterparts and if “YES”- same accessibility to health concerns will be the next question. Some differences in racial status (white/black): http://www.cdc.gov/niosh/topics/surveillance/NOMS/icd-occ-form.html</p> <p><input type="checkbox"/> No specific emphasis on foreign born status and other related immigration status</p>
